<i>Aqua Blue Water Soluble</i> #UR-8005	➤ <i>Biodegradable Clay</i>	➤ <i>7.25 D x 9 H</i> ➤ <i>Min 200 cu/in</i>	385.00
<i>Pearl Water Soluble</i> #UR-8006	➤ <i>Biodegradable Clay</i>	➤ <i>7.25 D x 9 H</i> ➤ <i>Min 200 cu/in</i>	385.00

The above Urns are all biodegradable produced to enable your families to leave a lighter footprint on the planet. They are all hand-crafted and may vary slightly in size and appearance.

Scattering Tubes are designed for scattering and produced using recycled content. They contain no metal or plastic components and can be recycled after use.

UR-8001, UR-8002, UR-8003, UR-8004, UR-8005 and UR-8006 are designed to float briefly and naturally biodegrade once placed in water, some as little as 4 hours. Water biodegradable urns are supplied with a biodegradable water soluble bag into which the cremains must be placed. All Federal and local regulations must be followed when placing these urns at sea or in lakes.

METAL URNS			
Model	Description	Size	Price
Sentinal Brass #UR1403B	➤ Brass	➤ 6.5 D x 8H ➤ Min 200 cu/in	185.00

The above keepsakes are all biodegradable produced to enable your families to leave a lighter footprint on the planet. They are all hand-crafted and may vary slightly in size and appearance.

Scattering Tubes are designed for scattering and produced using recycled content. They contain no metal or plastic components and can be recycled after use.

UR-8001, UR-8002, UR-8003 and UR-8004 are designed to float briefly and naturally biodegrade once placed in water, some as little as 4 hours. Water biodegradable urns are supplied with a biodegradable water soluble bag into which the cremains must be placed. All Federal and local regulations must be followed when placing these urns at sea or in lakes.

*All Jewellery is made of 316 jewellery quality stainless steel*

We always recommend sealing the pendant, bracelet or keychain.

To seal the pendant we recommend using a small amount of clear two part metal adhesive. Please ensure that the threads are as clean as possible to ensure good adhesion. Using a toothpick or similar, apply a very small amount to either the threads or the inside of the threaded opening and carefully screw shut. Be sure that none of the adhesive spills on to the pendant - if it does you can try to remove it by quickly wiping it with a soft cloth. Allow at least 24 hours for your pendant to completely set.

NOTE: Even when sealed with adhesive your pendant should never be fully immersed in water and should be removed prior to swimming or showering.
